

SINGLE ANIMAL LIVESTOCK SCALE

CUTTING-EDGE TECHNOLOGY

Over 95 years of combined manufacturing experience

SINGLE ANIMAL LIVESTOCK SCALE

Designed to weigh any livestock with ease and accuracy, the B-TEK Single Animal Livestock Scale is your go-to solution for weighing livestock. Equipped with two sliding doors for accessibility and safety. The B-TEK Single Animal Livestock Scale offers reliable weighing for a wide range of livestock with a capacity of 2,500 or 5,000 lb. Ideal for veterinary practices, agriculture organizations, research centers, county fairs, and operations that do not require a multi-animal scale, the B-TEK Single Animal Livestock Scale is versatile to meet the needs of the environment and animal.

Features and Specifications

- **NTEP COC:** 94-092A3
- **Type:** Above ground
- **End Load Capacity:** 80% for 2.5K and 100% for 5K
- **Scale Height:** 4-3/8" nominal
- **Available Sizes:** 8' x 3' and 8' x 4'
- **Weighbridge:** 1/4" steel deck plate with formed channel sub-structure, rubber barn mat bolted to deck
- **Racking:** Square tube steel with kick plate
- **Gates:** Full width slide gate at each end of scale
- **Finish:** Alkyd Enamel paint system

Electrical, Warranty, and Options

Junction Box

- NEMA 4 box with signal trim summing board

Load Cell

- Plated alloy steel, 350 Ohms, 3.0 mV/V
- 2.5K capacity: (4) 1,000 lb cells
- 5K capacity: (4) 4,000 lb cells
- Optional hermetically sealed (IP68) cells are available

Warranty

- 3-Years on weighbridge steel structure
- 2-Years on load cells, junction box, and summing board

Options and Accessories

- Ramps and bump-guard with foot retainer plates
- Calibration options
- Weld seal and hermetic load cell options
- Quick disconnect cabling
