LIVESTOCK WEIGHING SOLUTIONS

Rice Lake Weighing Systems' **SURVIVOR**® livestock scales are known as the “Toughest Scales on Earth.” Designed to provide reliable performance under the most demanding conditions, **SURVIVOR**® livestock scales are built with more structural steel, a superior support structure and innovative design features that provide consistent accuracy, less downtime and longer scale life.

The **SURVIVOR**® AG Series Livestock Scale

The AG packs the performance of a SURVIVOR into a mid-size, mid-duty frame. The SURVIVOR AG comes complete with a fabricated weighbridge for a concrete platform, load cells, mounts and offers top access to load cells.

The AG is available in concrete with a standard deck profile from 14" to 16" high, or with an optional steel deck. The AG is ideal for a variety of livestock and vehicle weighing applications.

Standard Features:

- 10' to 12' deck width and 24' to 35' deck length
- NTEP-certified, COC #98-008A1
- 25,000 lb capacity load cells and pre-assembled G-Force mounts
- Up to 30,000 lb full scale capacity
- 5-year weighbridge warranty

SURVIVOR® AG Series Specifications/Dimensions:

Size	24' x 10'	24' x 12'	35' x 12'
Capacity	30,000lb	30,000lb	30,000lb
Load Cells	(4) 25,000lb	(4) 25,000lb	(4) 25,000lb

The **SURVIVOR**® LV Livestock Ring Scale

The LV delivers a total system for use in new or existing livestock barns or processing plants. Each NTEP-certified Legal-for-Trade scale is custom built to fit the exact specifications and requirements of the application for which it is being installed.

Standard Features:

- Platform lengths from 13.5' to 40'
- Platform widths from 13.5' to 22.8'
- NTEP-certified, COC #98-010A1
- Full scale capacity: to 50,000 lb in 5 lb increments; to 70,000 lb in 10 lb increments

SURVIVOR® LV Series Specifications/Dimensions:

Size	24' x 14'	30' x 18'	20' x 14'	24' x 14'	30' x 14'	35' x 14'	40' x 14'
Capacity	50,000lb	50,000lb	50,000lb	50,000lb	50,000lb	70,000lb	70,000lb
Load Cells	(6) 50,000lb	(6) 50,000lb	(6) 50,000lb	(6) 50,000lb	(6) 50,000lb	(6) 50,000lb	(6) 50,000lb

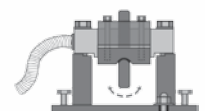

Built Tough, Start to Finish ...

Exclusive 5-step process for maximum corrosion protection

- 1 Centrifugal abrasive blast cleaning removes mill scale and surface imperfections
- 2 A thorough cleaning process prepares deck for maximum adhesion of coating applications
- 3 High-solids urethane primer is applied to the steel surfaces
- 4 Specialized high-solids urethane paint completes finish
- 5 Asphalt emulsion undercoating applied to all non-visible steel

G-Force™ Patented Self-Checking Mounting System

Exclusive design sets an entirely new standard for performance, efficiency and durability. The G-Force mount system eliminates excess movement and scale wear by using 100% of the gravity force from the loading action against itself — instantaneously returning the scale to dead center without check rods or bumper bolts. The result? Faster processing, consistent accuracy and less maintenance.

Mount assembly

TuffSeal® Junction Box Protects Circuitry

The rugged TuffSeal junction boxes are specifically designed to protect circuitry from damage caused by moisture. The unique enclosure design inhibits moisture ingress and a Gore™ Protective Vent helps equalize the pressure inside the enclosure which can be caused by sudden temperature or environmental changes.
