

Weigh-A-Round Portable Platform Scale

Portable
Versatile
Reliable

The B-TEK Weigh-A-Round Portable Platform Scale is designed for any weighing application where it is more convenient to move the scale than the items being weighed. Designed for the ultimate portability, maneuvering the Weigh-A-Round through tight spaces is easy in any facility!

Portability

Easily move the scale within your facility with standard inboard wheels and lockable, rear-mount swivel casters

Industrial-Grade

Constructed with painted carbon steel or 304 stainless steel

Multiple Capacity Options

Dial in the weight for exactly what you need with capacities ranging from 100 to 1,500 lbs
